# A Message from the Rector

*Dear Graduating Class of 1989,*

Passages in one's life are always an occasion for mixed emotions. There is a sense of celebration which comes from having accomplished something significant. Equally strong, however, is the feeling of nostalgia for what we leave behind, especially if this has enriched us. No doubt you share this ambivalence as you leave your Concordia years behind you.

You arrived at the University full of promise and hope. You came to learn, to deepen your understanding of the world, to prepare yourself for the challenges of a particular career. Concordia has tried to fulfill your expectations and, in the process, provide you with the tools necessary to think critically and creatively. It is hoped that you will leave the University with more questions than answers. Learning is a lifelong pursuit.

In our increasingly complex world, thinking critically is no longer sufficient; it is also required of us that we think morally. As individuals and collectivities, we will be more and more confronted with situations calling for ethical choice -- situations requiring that we move away from prejudice and stereotyping to tolerance and respect.

Our world needs individuals with a sense of justice and caring. Technology sometimes makes it too easy for us to forget this important dimension, absorbed as we often are by pure technique. Part of the meaning of a university education is precisely to deepen in us the basic aptitudes necessary for the full development of moral and social responsibility.

Concordia University will mean unique and very different things to each of you. Yet it is fair to say that you have all participated in a common experience. Though your achievement is very much your own, the University shares your sense of pride and accomplishment. On behalf of your alma mater, I congratulate each of you on "a job well-done".

As you move on into your chosen careers, or as you pursue your studies at the graduate level, I know Concordia can rely on your continued affection and support. This University, which has been such an important part of your lives, is happy to count you amongst its ambassadors-at-large.

*Patrick Kenniff*  
*Rector and Vice-Chancellor*

On November 4, 1988 --- Québec Higher Education and Science Minister Claude Ryan presided over the ground breaking ceremony for Concordia University's \$40 million downtown library complex. The six-storey, 20, 975-square-meter building will open in the fall of 1992.

The library site is located opposite the University's Henry F. Hall Building. It is bordered by de Maisonneuve Boulevard on the north, Bishop Street on the east, Mackay Street on the west, and the laneway between de Maisonneuve Boulevard and Sainte-Catherine Street on the south.

All 11,000 square meters of Concordia's existing downtown library space will be incorporated into the new building, along with almost 10,000 square meters of study space for graduate and undergraduate students and badly-needed seminar rooms, conference rooms and faculty offices. Existing library facilities downtown are spread over 11 floors in four widely-scattered buildings.

The new downtown library will be connected to the Henry F. Hall Building by a passageway under de Maisonneuve boulevard. The library building's ground floor will feature a spacious, naturally lit 24-foot-wide interior street and community space known as Place Concordia. The entire area will be enclosed by a six-storey atrium.

Place Concordia will be the new address for the Concordia Art Gallery, the University's bookstore, a student services area --- with admissions, registrar services and student accounts facilities -- a 250-seat cinema for teaching, conferences and the Conservatory of Cinematographic Art, and a dining area.

The conservatory and art gallery are currently located across the street in the Henry F. Hall building. More than 100,000 people visit the conservatory and art gallery annually.

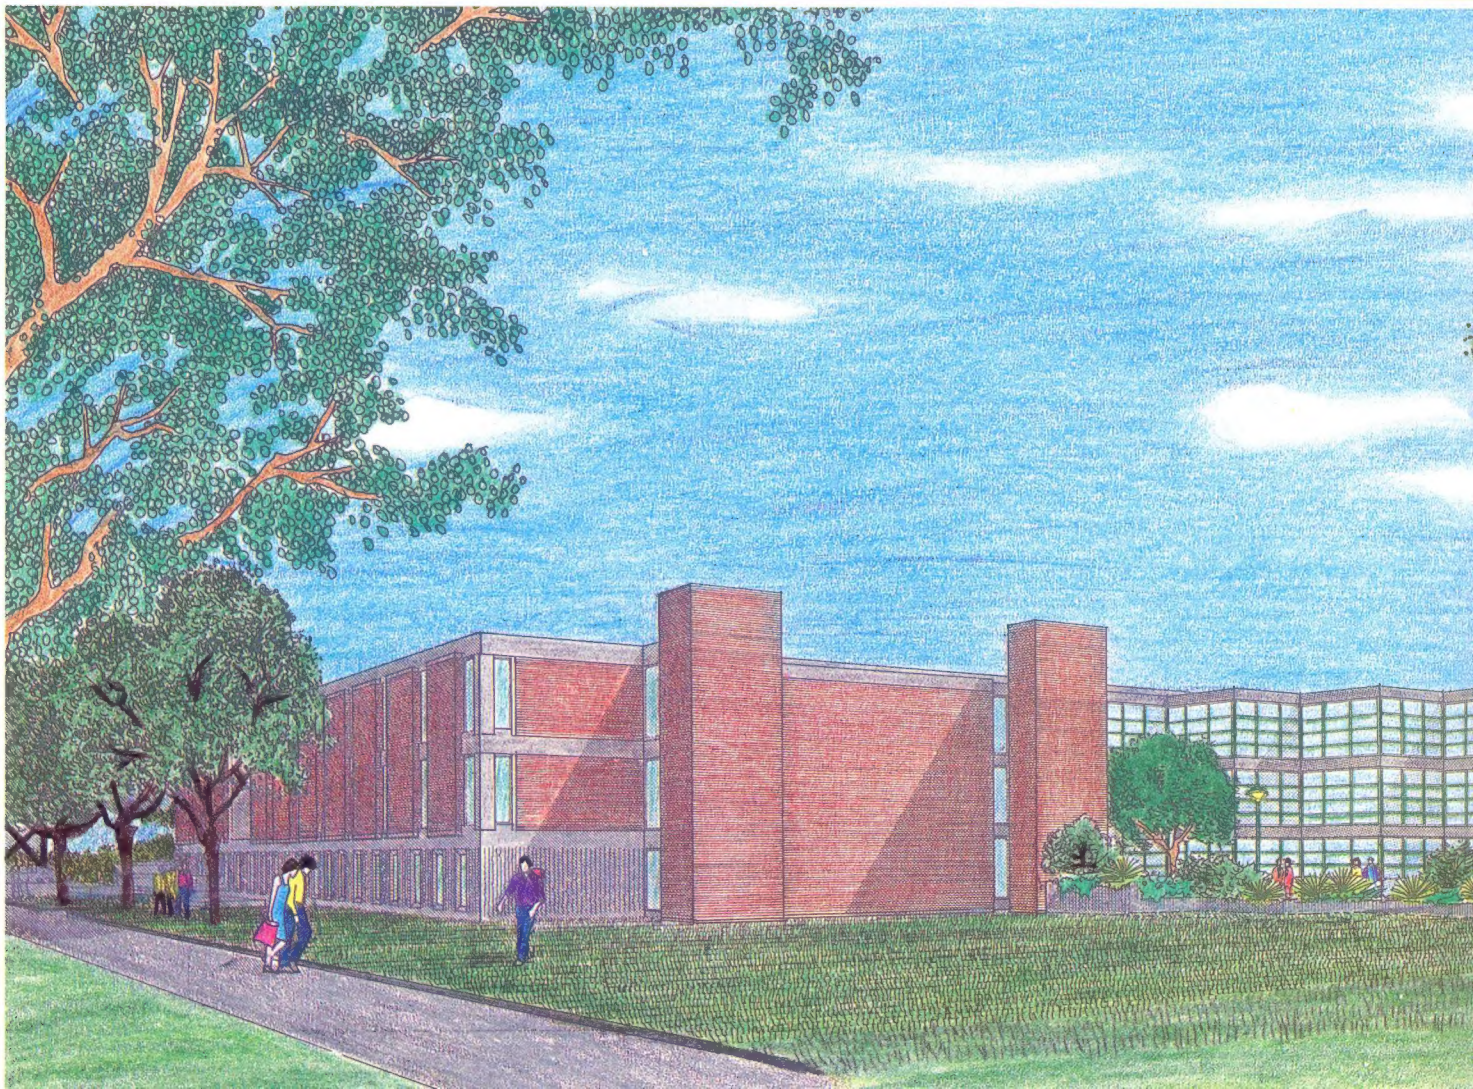

The east side of the complex, on Bishop Street, will integrate a portion of the former Royal George Apartment Building, including the structure's 76-year-old glazed terra-cotta façade.

Elevators, escalators and stairs on the Mackay Street side of the building will lead up to a second-floor lobby outside the library's main entrance. The two halves of the library will be joined across the atrium by bridges.

The library facilities will be consolidated on floors two, three and four of the new structure, and will feature the latest in library design and equipment. Floors five and six will group academic departments currently scattered in annexes and buildings in downtown Montréal.

The complex will feature the latest in earthquake-resistant technology. Although Montréal is not considered earthquake-prone, even slight tremors can damage or destroy electronic databanks. Technology developed by Concordia Civil Engineering professor Avtar Pall, the President of Pall Dynamics Ltd., will protect the sensitive computer equipment Concordia will house in its new library.

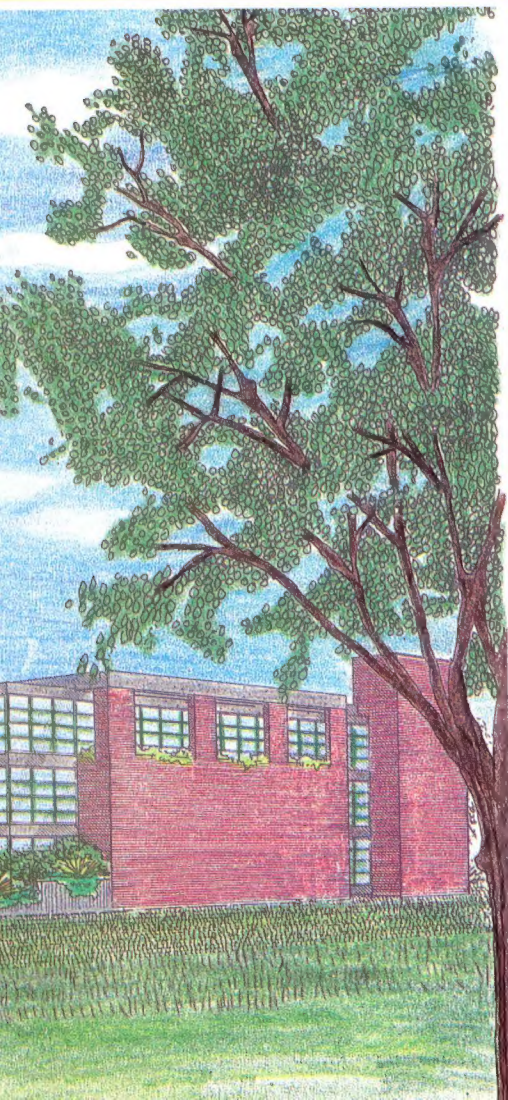

Dr. Pall's "friction base isolation technique" uses a centuries-old engineering concept that isolates and dissipates vibrations at the base of a structure, leaving little energy to cause damage.

Y BLOUIN & ASSOCIÉS Architectes

A series of sliding steel plates between the superstructure and the foundation are criss-crossed with a device that functions like brake pads on a car. When installed at strategic points in building joints, they provide friction to reduce up to one-third of the seismic energy generated during earth tremors.

Concordia's new library will be open to the public. In addition to borrowing privileges for the more than 1.4 million items in the Concordia collection, Montrealers will also have access to all reading areas and reference services.

Ground breaking ceremonies for the Vanier Library extension and renovation project at the University's Loyola Campus took place in May, 1986. In the winter of the 1988-1989 year students began to use the new portion of the library shown here in an artist's sketch. Expansion and modernization of the original Vanier Library which was officially inaugurated on October 19, 1963 will double the available space. Not visible in these sketches but definitely a major part of the \$13 million redevelopment of Concordia's Loyola Campus is a 600 seat concert hall. Due to open in September, 1989 the hall will be used principally by the Faculty of Fine Arts which stages approximately 110 concerts a year --- most of which are free and open to the public.

Concordia will also rent the hall to community groups. About 100 bookings could be accommodated annually. The new structure is being built adjacent to the Campus Centre and the Vanier Library. All three buildings will share a common foyer.

# Expansion Underway

Featured on this and the following pages are some major building projects in progress at Concordia this year. A portion of the Verdun stadium was installed on the west end campus. To be open for the first home game of the 1989 football season this structure will eventually include locker rooms, training rooms and a snack shop. In a few years we are told a swimming pool will appear nearby. The library expansion also on the west end campus was completed. Serious work began on the university's major construction project downtown, the library. Piles were driven and the Royal George came tumbling down in April (except for its architecturally significant front). Minister of Education, Claude Ryan, was greeted at the ground breaking ceremony by a contingent of visitors from ANEQ.

## THE POWER OF DARKNESS

Russia has always fascinated the west with its mysticism and searching agony, yearning for a better life, and the impact of the dream on a population well accustomed to hardship. The current events in the USSR are just a continuation of a long tradition of myth-making. Ever since the time of Tolstoy, revolutions were the domain of the aristocracy, the intelligentsia, the middle class - the collective dream of those that have escaped the lot of agrarian Russia. Tolstoy's drama touches the heart of the Russian existence and its main protagonist - the peasant. As a serf, a free man, and later as a member of the collective farm, the peasant always followed a predestined way of life - the church, the authorities, the geographical isolation and the struggle for survival. His dreams were impregnated with the alcoholic intoxication of passion and unfulfilled desire. *THE POWER OF DARKNESS* is the story of a woman attempting to break away from the mold to fulfil her beauty and youth. It is not murder, but the scream of the individual that finds an outlet in violence. Unlike most of the works written at the time, the heroes of the play are not Nikita and Anisia but a whole community that undergoes a profound change underneath the imbecilic appearance of the peasant.

It is a rare opportunity for the young, wonderful performers and technicians, myself and you, the audience, to know this eternal and masterful work that has never been performed before in North America. Once again, I want to compliment the theatre department for filling the vacuum that the professional theatre had refused to touch.

The Lesbian Studies Coalition of Concordia is a student group formed in response to the heterosexism in education. We meet weekly at the Simone de Beauvoir Institute to work for the availability and inclusion of lesbian scholarship, perspectives, and materials in course curriculum of applicable disciplines. Events have included lesbian novelist/essayist, Jane Rule, Afro-German lesbian writer Katharina Oguntoye, West Coast lesbian writer Anne Cameron and a Cross-Canada Exchange where students and faculty from six universities met to discuss the current status of Lesbian Studies in Canada.

## Women's Hockey Team

The Concordia Women's Hockey team finished another great year by winning both the Québec Women's Inter-Collegiate Hockey League and provincial championships.

In the league championship final, the Stingers dumped the Bishop's / Champlain Polar Bears 3-0 and 5-1 to win their second title in three years.

Team captain Lisa Morgan received the Denise Beaudet Award for outstanding team leadership and dedication during the course of her career.

Thérèse Brisson won her third consecutive scoring championship, and was named Concordia's female athlete of the year for the second straight year.

Rookie forward Debbie Woods-Turner was voted to the second All-Star team after finishing third in league scoring.

It was another winning season for the Stingers. They finished with a 14-10-2 record, a solid third place finish in the OUAA Eastern division.

The Stingers began the season with an established offence, but a very young defensive corps. The addition of goaltender Robert Desjardins, coming to the Stingers after four seasons in Quebec Major Junior Hockey League, helped to make up for the defensive inexperience.

Team captain Mark Mahon and forward Richard Laplante led the team in scoring, and finished second and third respectively in the league.

Mahon, Laplante, and Desjardins were all named to the OUAA All-Star Team. Mahon was also voted OUAA MVP and Concordia's male athlete of the year. Desjardins was named Concordia's male rookie of the year.

## Men's Hockey Team

## Men's Varsity Soccer

The Stingers boast a rich soccer tradition, being the only Concordia team sport with the CIAU championship banner. This year, once again, the Stingers were one of the stronger teams in the conference. Having gone through the league play with a 2 4 2 (WTL) record they were aspiring to move past the McGill Redmen into the national finals. With eight rookies in their lineup the Stingers made significant progress through the season. Finally they fell short by a goal (0:1) in the playoffs to the eventual CIAU finalists the McGill Redmen. Henrik Lystager, the teams MVP and Rookie of the year, was joined on the QSSF all-star team by goalie Genero Angelilo and defender Larry Corso. With the nucleus of the team returning, sophomore coaches Pavlicik and Campo expect to reach the nationals next season.

The Women's soccer team had a memorable season winning the Provincial Championship and a berth in the CIAU Soccer Championships. Unbeatable during the regular season (8-0-1), the Stingers went on to defeat the McGill Martlets 2-1 in the playoffs.

The Stingers placed three players on the CIAU All-Canadian team. Sophie Drolet set a single season CIAU record of 17 goals in 9 games and was named QUAA athlete of the week twice. Co-captains and national team members Connie Cant and Annie Caron scored five and eight goals respectively in league play.

Drolet was also named Concordia's female rookie of the year. Jennifer Beauregard received a merit award for having displayed exemplary leadership, sportsmanship, and performance over the course of her career.

# Men's Varsity Football

The football team started the season with high hopes in both phases of the CAAU rankings. The Stingers' season finale ends in the season with a 11-2 record, and finished back with three victories, finishing 12-4 over the season on 11.

The highlight of the season was on October 13th, when the Stingers defeated the Baker's Bears in a game that was a 28-0 victory. In that game, the Stingers rushed up 400 yards in total offense, passing when utilizing the powerful Bears offense to 187 total yards. Quarterback Tom Abbott completed 14 of 24 passes for 212 yards and 2 touchdowns.

Offensive linemen Paul Virdy, Richard McGary, and Andrew Allen were named to the CAAU All-Centennial team.

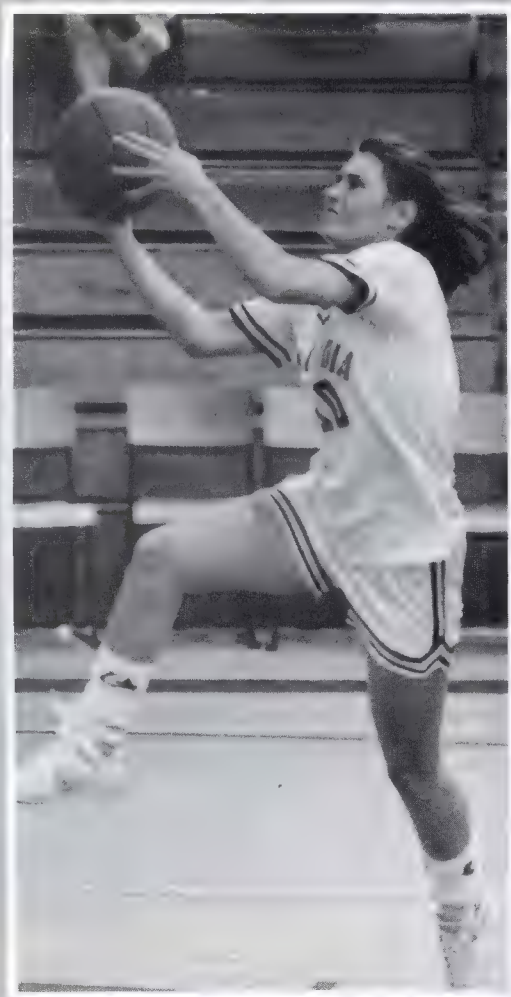

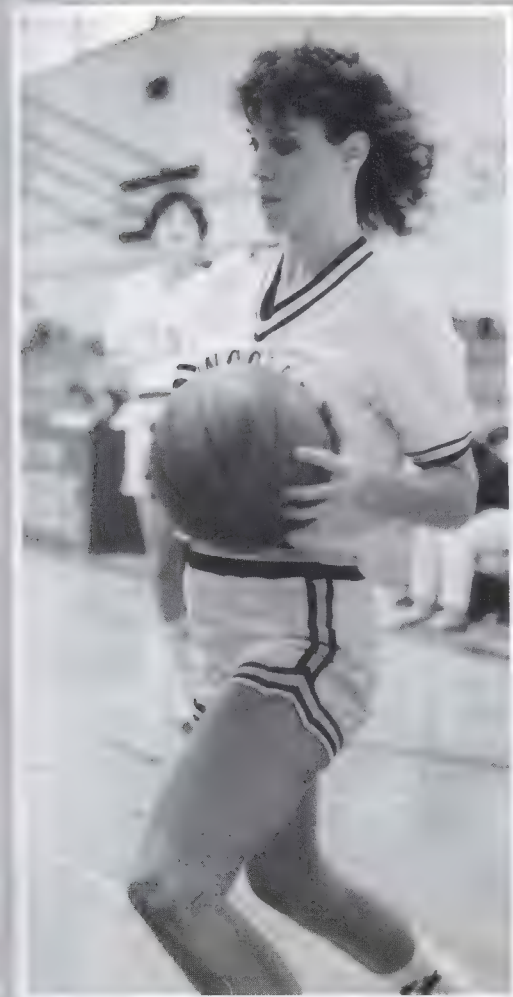

## Men's Wrestling

After winning five straight national titles, the Concordia wrestling team finished in second place, only five points behind York.

David Mendelsohn, Andy Borodow, and Rob Dawson won gold medals, at the CIAU Championships, in their respective weight classes. Mike Meekins and Dwayne Zacharie took silver medals, while Tom Rebelo and Anthony Merlo finished third in their weight categories.

In the World Sombo Championships held at Concordia, Borodow won the gold medal in the Espoir (under 20) heavyweight category. Mike Meekins took a silver in the Espoir 68 kg weight class. Sebastien De Pani finished second in the 82 kg category. David Mendelsohn and Pat Sullivan placed fourth in the Senior Division.

With Best Wishes for Success in the Years Ahead

# DEAN OF STUDENTS OFFICE

# The Concordia University Alumni Association

---

## Making the Best University Better

---

### Here's What We Do

---

#### **Regular Contact:**

*Concordia University Magazine* keeps readers posted on major developments at the university and some of the amazing things happening with graduates; news of coming events and other items of interest are also carried in the magazine or in supplemental mailings.

#### **A Strong Voice:**

Alumni concerns about university developments are voiced by representatives on the university's Board of Governors and in several advisory and decision-making bodies across the university.

#### **Participatory Membership:**

Graduates are asked to participate in freshman orientation programs, career workshops and in an increasing variety of academic and extra-curricular projects.

#### **A Finely-Tuned Machine:**

The association came into being in 1982 on the recommendation of the Sir George Williams and Loyola alumni associations. Its first objective is to create fellowship between the founding associations and to strengthen links with all graduates so that they can be a strong voice in shaping Concordia. Equally important is graduate involvement in advisory, fund-raising and student recruitment activity.

*Graduating Class Officers:* A vital part of the alumni are class officers who keep in touch with

members of their graduating classes through newsletters and social and working get-togethers. They are the key people for organizing class reunions.

*Alumni Records:* Graduates change their addresses an average of seven times in the first 10 years after graduation; postage costs have become horrendous and so it's important that you keep the alumni office posted on any change of address to avoid waste.

*Chapter Network:* There are now Concordia alumni chapters in Ottawa, Toronto, Winnipeg, Calgary, Vancouver, Victoria, San Francisco and Los Angeles, and new chapters spring up as demand occurs. Concordia, Sir George Williams and Loyola also maintain a busy schedule of activities in Montreal year round.
